"Write The Vision"- A Biblical Mandate For 121 Connectors

"Write the vision, And make it plain on tablets, That he may run who reads it." Hab 2:2 (NKJV)

Writing your vision down (*for your 121 Connectors Ministry*) gives you something to constantly have before you and when it is read, faith arises, giving you the ability to run the race. Place it inside your Bible. Review it constantly. Lay hold of the vision and keep on pressing forward. You will never be a loser!

Read it out loud. Silence is a tool of the enemy, and confession is a bubbling fountain of faith. Confession releases hope and hope does not disappoint but builds faith.

"Making it plain on tablets" simply means to engrave it. When you get hold of it, keep talking it. Your very reason for existence should be to fulfill your God given vision.

Lord Byron quoted "A drop of ink makes a million think" A vision expressed in writing can influence millions of people even after you are no more.

So, write down your vision statement for your life, ministry, business or for that matter anything. You are on your way to success.
